

# AT HOME CARE PASS

**\*Please refer to the following tips and recommendations for your daily Hairdreams hair care\***

## **Brushing and Combing**

- Sort through your Hairdreams hair with your fingers from the roots to the ends on a daily basis.
- Carefully brush your hair with the Hairdreams brush every day. Always hold on to the roots of your hair with one hand while brushing.
- If your hair is permed, moisten it and knead it with your fingers after brushing.

## **Hair Care Products**

Since your Hairdreams hair is not connected to your scalp, it cannot be provided with its natural conditioning substances. The Hairdreams care products specifically address this lack of natural conditioning and are formulated to meet the conditioning needs of human hair extensions. If used regularly, your Hairdreams hair will keep its optimal shine, elasticity and depth of color. Your stylist will inform you about the right combination of products for your individual hair type (see the recommendations in your Care Pass). Your stylist must record your product purchases in your Care Pass to ensure that you can take advantage of the Hairdreams quality guarantee for the complete wearing period.

## **Hair Washing**

All Hairdreams Special Shampoos were developed especially for the regular washing of human hair extensions. Different formulas are available to cater to any hair type.

### **Directions for use:**

- Thoroughly brush your hair with the Hairdreams brush before washing.
- Rinse your hair and apply the shampoo from the roots to the ends. Do not rub the hair.
- Rinse your hair thoroughly from top to bottom. After washing, sort through your hair and bonding points with your fingers.

## **Conditioning**

After washing, use the Hairdreams Regeneration deep conditioning treatment. The Regeneration deep conditioning treatment provides the hair with important nutrients, smoothes the surface of the hair and ensures maximum elasticity and strength.

### **Directions for use:**

- Apply the Hairdreams Regeneration conditioning treatment and carefully press it into the hair from top to bottom. Do not rub the hair.
- Leave it in for about 5 minutes - for extra deep conditioning leave it in for up to 20 minutes.
- Rinse thoroughly.

## **Shine Care**

Hairdreams Anti-Tap Spray is a special spray designed to moisturize the hair and neutralize the PH-level of the water still in the hair from washing. It allows the cuticle layer of your hair to close up, leaving your hair with a radiant and silky shine. Your hair feels strong as well as healthy.

### **Directions for Use:**

- After the last rinse, spray Hairdreams Anti-Tap Spray onto the wet hair and briefly comb or brush through. Do not rinse.

## **Care for Lengths and Ends**

Long hair needs extra care for lengths and ends. Improper hair care can lead to dry hair and split ends. Our high-quality Hairdreams Fluid conditions dry porous lengths and ends; if used regularly, it reliably prevents split ends.

### **Directions for use:**

- Take a few drops of Hairdreams Fluid into your palms and spread it first into the ends and then into the lengths.
- Comb in thoroughly. Do not rinse.

## **Drying Your Hair**

After washing carefully towel-dry your hair without rubbing. Then blow-dry first the bonding points, then your hair.

**Caution:** Extreme heat can dry and damage your Hairdreams hair.

## **Color, Highlights and Perms**

Chemical processes such as coloring, highlighting or perming can change the structure and surface of your hair, thus damaging it. In the best interest of your Hairdreams hair such processes must only be carried out by a certified Hairdreams salon.

## **Beauty Sleep**

Always tie your hair together or put it in a braid before you go to sleep in order to prevent your Hairdreams hair from matting.

## **Fun in water**

Always protect your Hairdreams hair with Ph & Shine Spray or Fluid before swimming. Tie your hair or put it in a braid. After swimming, open the braid, carefully sort through it with your fingers and dry the bonding points with a towel.

## **HAIRDREAMS HAIRCARE SERVICE:**

Regular check-up and care service at your salon is essential to ensure the best condition of your Hairdreams hair.

## **Check-Up Service**

After the first application of your new Hairdreams hair your stylist will immediately make an appointment for a free check-up service. This is to control the bonding points

and fit of the Hairdreams hair extensions. Please take advantage of this free service and have your stylist record it in your Care Pass. This confirmation is required for the validity of your guarantee. After that your stylist expects you to visit regularly for a tidy-up cut.

### **Tidy-Up Cut**

Each and everyone of us loses approximately 80 to 100 hairs a day in the course of natural hair loss. Normally this hair would be brushed out with daily brushing. However, part of this hair is now enclosed in the bonding point and cannot fall out naturally. The roots of these hairs have to be removed with a Tidy-Up Cut every 4 weeks. It is very important to have this service done on a regular basis to prevent the hair from matting, and to ensure easy removal at the end of a wearing period.

### **Removal**

A normal wearing period usually lasts 4 to 6 months, at which point the Hairdreams hair has to be removed. Your stylist will remove the hair for you in a gentle and non-damaging way.

## **PRODUCT DESCRIPTIONS AND HOW TO:**

### **HAIRDREAMS BEAUTY SHAMPOO**

**for all hair types**
